# National/International News

Terrorism was a constant threat worldwide. Bombings occurred in several Muslim nations with western ties. Flights into the U.S. were periodically canceled. Equipment was installed at airports to conduct instant background checks on visitors to the U.S.

Plans are in place for new construction on the site of the World Trade Center, which was destroyed on 9/11. If built, the Freedom Tower will reach 1,776 feet and become the tallest building in the world.

**STOP!**

Nuclear

Concerns remained about the development of nuclear weapons by Iran and North Korea. However, Libya agreed to dismantle its nuclear program.

In January, a dangerous cold spell gripped the Northeast. The high demand for electricity led utility companies to warn residents of possible rolling blackouts.

A European heat wave killed more than 14,000 people in late summer. As illness and deaths increased, a crisis developed at French hospitals and funeral homes. French citizens were angered by the slow government response.

We found him! After eight months of searching, soldiers of the U.S. Army's 4th Infantry Division captured Saddam Hussein, former Iraqi dictator. Meanwhile, fighting continued between insurgents and coalition forces as it had since the fall of Iraq in April 2003.

A late December earthquake killed at least 25,000 people in Bam, Iran. Aid teams from 16 countries went to help, including volunteers from the U.S., which was not on friendly terms with Iran.

A blackout Aug. 14 left people from Maine to Michigan in the dark. People were trapped in elevators and on subways and traffic snarled, yet this hotel clerk continued to work.

The flu season arrived earlier and stronger than usual, leading to packed emergency rooms, closed schools and the deaths of some children.

## National/International News

Arnold Schwarzenegger, the Austrian-born body-builder and star of *The Terminator*, *Terminator 2 Judgement Day* and other action movies, unseated unpopular Gov. Gray Davis during an October recall election.

Former Vermont Gov. Howard Dean, left, became the first presidential candidate ever to use the internet as a fund-raising venue, including a blog to keep in touch with voters.

John Allen Muhammad and Lee Boyd Malvo were found guilty in the Washington, D.C. sniper shootings. Meanwhile, at least a dozen shootings similar to those near Washington occurred near Columbus, Ohio.

The nation followed the case of Scott Peterson, who was to be tried in the deaths of his wife, Lacy, and their unborn son. Lacy's disappearance Dec. 24, 2002, sparked a massive search in the Modesto, Calif., area. Both bodies washed up on shore in April 2003.

A magnitude-6.5 earthquake was felt in December from San Francisco to Los Angeles, killing three people and destroying historic buildings in Paso Robles, including the wooden cupola that housed the old two-story clock tower.

Celebrations in Vatican City in October marked the 25th anniversary of the papacy of Pope John Paul II. During the occasion, the 83-year-old pope beatified Mother Teresa, the nun who devoted most of her life to caring for the sick and destitute in Calcutta.

Nations made preparations in case the virus SARS (Severe Acute Respiratory Syndrome) decided to return this winter. SARS, a flu-like illness, began in early 2003 in Asia, where many people wear face masks for protection.

An improving economy in late 2003 sparked hope for the nearly nine million unemployed Americans. President George W. Bush continued to offer reassurance that the economy was picking up, such as during his visit to a Maryland Home Depot store.

More than 20 people died, at least 1,100 people lost their homes and thousands were evacuated as California wildfires roared from the Simi Valley south to San Diego in the fall. Schools closed and airports were shut down.
